

Entry Level 1 to Level 2 Functional Skills in Maths

This course will equip you with a detailed understanding of Maths at the appropriate level, including core modules that will aid employability and confidence in key skills. Our e-learning resources can be accessed online to give you time to practise your skills and can be worked through with the support of your tutor to challenge and maximise the development of crucial skills for work and life.

Location:

- This course will be delivered face-to-face classroom based only.

Entry requirements:

- You must at least be working towards Entry Level 1 Maths to complete the first level of this course. For higher levels, you should be at least working at 1 level below.
- Your English Levels will be assessed at enrolment where you will be guided onto the correct level of study for you.
- If you are joining an online classroom course then you should have IT skills at least at Entry Level to enable you to access your classroom sessions.

At the end of the course, you will receive the Functional Skills in Maths, City & Guilds.
